Report on Inter-College PowerPoint Presentation Competition

The Career Development Counseling Cell of Sripat Singh College, SCBC College, Lalgola College, and Nabagram ACK College jointly organized an Inter-College PowerPoint Presentation Competition. The event aimed to foster intellectual discourse and creativity among students, providing a platform to showcase their knowledge and presentation skills. The competition covered two significant topics: "Science for Peace & Development" and "Impact of COVID-19 on Education." Held on May 21 and May 28, 2022, the event was conducted online via Google Meet, beginning at 7:00 PM. Students registered for the competition through the provided link (<https://forms.gle/VRU5ZWYU86JP9WQM8>).

Topics of Discussion

The first topic, "Science for Peace & Development," invited participants to explore the pivotal role of scientific advancements in promoting global peace and fostering sustainable development. Presentations delved into how technological innovations could mitigate conflicts, enhance global cooperation, and address pressing issues such as climate change, health crises, and resource scarcity. This topic encouraged students to think critically about the intersection of science and societal progress, highlighting success stories and proposing future initiatives that could contribute to a more harmonious and prosperous world.

The second topic, "Impact of COVID-19 on Education," called for an examination of the profound changes the pandemic brought to the educational landscape. Presenters analyzed various aspects, including the shift to online learning, the digital divide, the impact on students' mental health, and the long-term implications for the education sector. This topic offered a platform to discuss the challenges faced by educators and learners, innovative solutions that emerged during the pandemic, and strategies to build a more resilient and inclusive education system for the future.

Event Details and Participation

The competition took place over two Saturdays, with each session dedicated to one of the topics. On May 21, 2022, participants presented their insights on "Science for Peace & Development," and on May 28, 2022, they addressed the "Impact of COVID-19 on Education." Both sessions began at 7:00 PM and were conducted through Google Meet, ensuring accessibility and convenience for all participants. Interested students registered via the provided Google Forms link to secure their spot in the competition. 30 students participated in the competition.

Recognition and Benefits

Participants stood a chance to win prize certificates and receive recognition on social media platforms. These rewards not only acknowledged the effort and excellence of the presenters but also provided them with valuable credentials that could enhance their academic and professional profiles. The competition served as an excellent opportunity for students to engage in meaningful discussions, hone their presentation skills, and contribute to important conversations on contemporary issues. By participating, students expanded their knowledge, networked with peers from other colleges, and gained visibility in the academic community.

In conclusion, the Inter-College PowerPoint Presentation Competition was a commendable initiative that encouraged students to explore critical topics, articulate their perspectives, and engage with a broader audience. The collaboration between Sripat Singh College, SCBC College, Lalgola College, and Nabagram ACK College underscored the importance of joint efforts in fostering educational and intellectual growth. Students were urged to participate actively and make the most of this enriching experience.
