## Event Report:

### Webinar on Plastic Pollution -Myth vs Reality on International Plastic Bag Free Day

On the 3rd of July at 7:00 PM, a significant event titled "Say No!! To Plastic Bags" was organized to commemorate International Plastic Bag Free Day. The event, which was a collaborative effort by the Department of Molecular Biology & Biotechnology and the Career Development Counseling & Placement Cell of Sripat Singh College, SCBC College, Lalgola College, and Nabagram ACK College, aimed to address the pressing issue of plastic pollution. The presence of esteemed speakers, including Dr. Sukumar Mal, Associate Professor of Chemistry at Sripat Singh College, Dr. Abhisekh Basu, Coordinator of CDCPC, and Professors Sumit Bandyopadhyay and Asis Kumar Sen, added substantial value to the discussions.

Dr. Sukumar Mal began the session with an insightful presentation on the environmental impact of plastic bags. He elaborated on how plastic bags, due to their non-biodegradable nature, contribute significantly to pollution, affecting marine life and ecosystems. Dr. Mal dispelled common myths surrounding plastic recycling, emphasizing that only a small percentage of plastic bags are recycled effectively, while the rest end up in landfills or oceans. His discussion highlighted the reality that plastic pollution is a global crisis requiring immediate and collective action.

Following Dr. Mal's presentation, Dr. Abhisekh Basu spoke about innovative alternatives to plastic bags. He introduced the audience to biodegradable and reusable options, encouraging a shift towards sustainable practices. Dr. Basu also discussed the role of policies and regulations in curbing plastic use, citing examples from countries that have successfully implemented plastic bag bans. His talk underscored the importance of individual responsibility and community initiatives in driving change, urging attendees to adopt and promote eco-friendly habits.

Professor Sumit Bandyopadhyay and Professor Asis Kumar Sen provided a comprehensive overview of the current efforts by educational institutions to tackle plastic pollution. They highlighted various projects and campaigns led by students and faculty aimed at raising awareness and reducing plastic usage on campuses. The professors also discussed future plans to integrate environmental education into the curriculum, fostering a culture of sustainability among students. Their insights reinforced the idea that educational institutions play a crucial role in shaping environmentally conscious citizens.

The event concluded with a call to action, encouraging participants to register their commitment to reducing plastic usage through a provided registration link. The organizers emphasized the importance of continued dialogue and collaboration in combating plastic pollution. The discussions and presentations throughout the evening shed light on both the myths and realities of plastic pollution, ultimately inspiring attendees to take concrete steps towards a plastic-free future.
